

Kevin Ramirez

Full Stack Developer & Automation Specialist

Montevideo, Uruguay • (+598) 97 026 643 • kevinsilvaram@gmail.com • [Linkedin.com/kevin-ramirez-silva](https://www.linkedin.com/in/kevin-ramirez-silva)

With more than 5 years of experience, I am specialized in automation and process optimization. I create creative solutions for both frontend and backend using technologies like JavaScript, React, Node.js, and Google Apps Script.

I can work on complex challenges, from technical analysis to execution, always focused on results, continuous improvement, and good teamwork with different types of professionals.

Experience

10/2023 – 05/2025

Full Stack Developer (Automation & Process Optimization) | Arbusta

I designed and built internal tools to automate tasks and show operational metrics using web technologies, RPA, and microservices.

- I created tools to follow SLA and analyze data in real time.
- I developed browser extensions and microservices connected to databases and dashboards.
- I used the DOM to capture user actions and generate metrics with RPA.

06/2022 – 09/2023

Front-end Developer | Bridge for Billions

I worked on a platform for entrepreneurs, helping with new features, improving performance, and fixing important bugs.

- I created custom components in React, following design rules.
- I reduced unnecessary API calls to make the platform faster.
- I gave technical support and updated technical and functional documentation.

05/2022 – 08/2023

Meta CAPI Developer | Meta - Arbusta

I helped clients use Meta's Conversions API (Meta CAPI) in production to improve ad performance with better event tracking.

- I implemented Meta CAPI in different AWS environments.
- I created server-side solutions to track ad events better.
- I reduced cookie use and improved campaign attribution.
